PROFESSIONAL EXPERIENCE

PhD Fellow

Copenhagen Business School

September 2023-present

Frederiksberg, Denmark

- My PhD research will focus on the logics that govern European investment decisions, most notably within the framework of programmatic research funding. Using Entrepreneurialism as symptom of- and lens through which to view- contemporary capitalism, I hope to understand (1) the construction of European financial infrastructure and (2) how this infrastructure shapes state investment capabilities. While a political scientist by training, I approach research from an interdisciplinary standpoint, borrowing from sociology, law, philosophy, economics, and history.

Intern

OECD

June 2022-August 2022

Paris, France

- As public policy intern at the OECD (CFE/EST division), I performed high-quality research under the auspices of the "SME Scale-Up Phase II"-project (co-funded with the European Commission) to better understand the role of network linkages in SME internationalisation efforts. The work primarily involved policy mapping, framework conceptualisation, and report drafting.

Legal and Policy assistant (previously Blue Book Trainee)

European Commission

March 2021 - August 2021

Brussels, Belgium

- As Legal and Policy Assistant at DG GROW, I provided qualified support to line units and coordinated the competition policy, in addition to serving as the case handler for COVID-related State Aid notifications.
- As part of DG GROW's Competition Team, I followed- and helped coordinate the directorate's position on various competition policy initiatives.
- As part of DG GROW's Postal Services Team, I contributed to the evaluations of the Postal Services Directive and the Cross-Border Parcel Regulation, by among other things building a database of user needs surveys across the Union.

Quality Control Analyst

Accenture

August 2019 - January 2020

Dublin, Ireland

- I performed quality control and policy compliance overview for media content aimed primarily at the Nordic market in order to ensure that what was delivered to the final customer was in line with local laws and regulations. The role included continuous compliance monitoring, close communication and collaboration with both the client and the content delivery partners, and beta-testing of new tools and workflows for the client.

EDUCATION

MPP Management & Public Affairs
(summa cum laude)

Sciences Po Paris

2021 - 2023

B.A. Political Science and International Law (cum laude)

Sciences Po Paris

2016 - 2019
